

JAGUAR II

LONG, DARK-SEEDED CONFECTION

Jaguar II produces a large seed type that processors desire for its size and appearance. With great standability and dry down, this Clearfield[®] tolerant hybrid is a win for any sunflower grower's farm.

PRIMARY MARKET: Confection

Herbicide Trait: Clearfield[®]

Downy Mildew Resistant: No

Maturity: Medium / Group 4

Seed Type: Long Type (LT)

KEY FEATURES

- Beyond[®] herbicide tolerant
- Improved seed size, length and color
- Excellent yield and dry down
- Great standability

MANAGEMENT RECOMMENDATIONS

- Recommended planting rate: 15,000-18,000 plants per acre
- Recommend spraying a fungicide for rust
- Northern and central production areas

It's hard to improve on our original Jaguar confection, but **Jaguar II** does exactly that with **longer seed type** and **better coloring** for current market demand.

NUSEED - BRECKENRIDGE, MN

PERFORMANCE POTENTIAL

HARVEST CHARACTERISTICS

AGRONOMICS

Hybrid Rating Scale 1 = Poor, 9 = Excellent (excluding Plant Height)

Plant Height Rating Scale 1 = Shortest, 9 = Tallest

SEED TREATMENT

Nuseed hybrids are treated with fungicide and insecticide seed treatment to protect your seed investment.
