

Legend HarvXtra™ RR

FEATURES & BENEFITS

- 12-15% reduction lignin content
- Legend HarvXtra™ RR can hold peak quality 7-10 days longer than conventional alfalfa
- Potential to reduce one harvest annually

MANAGEMENT RECOMMENDATIONS

- The HarvXtra™ technology provides unprecedented flexibility to widening cutting windows, which gives growers the option at each cutting to:
- Maintain their normal harvest schedules for higher quality forage
- Delay harvest for 7-10 days for increased yield potential, without sacrificing forage quality, compared to conventional alfalfa at the same stage of maturity.
- Use best management practices when placing this product in wet poorly drained soils
